Weekend Seminar

8-9-10 June 2018

*The ones who make things happen
 are the ones who have a vision!*
 Jim Dornan

Mitch & Deidre Sala

Founders Crown Ambassadors from Australia

Mitch, a civil engineer and Deidre, a product manager, were both new to Sydney when they joined the business. At the beginning, Deidre misunderstood and was unexcited about the business. Mitch only wanted an extra \$100.00 per week. They were both unskilled at business but willing to learn in order to achieve their dreams.

To be Australia's first Crown Ambassadors in the business was one of 100 dreams they compiled when they were just 3%. This dream, that seemed so ridiculous at the time, has amazingly been achieved.

A large, worldwide business was another absurd dream, but with Jim and Nancy Dornan's leadership and the proven Network TwentyOne System, they have been able to fulfil it. Today their organization spans the globe from Europe to South America, Asia to Africa.

Most of those fantastic dreams have come true, from the beachfront home, to the first class travel, to the country retreat. Their lifestyle now is a long way from the meager, two bedroom unit they were in when they first saw the concept. However, the most valued reward from this business has been the cherished time as full-time parents to their children, Rick, Tamsen and Blake.

Focusing on solutions is a basic philosophy for Mitch and Deidre, who say, "You can only focus on one thing at a time. You are either focused on your dream or you are focused on the distractions or obstacles life brings. Success in anything requires focusing on the reward, not the effort. In our case, we did not know anyone in Sydney, so the solution was to build an organization with people that we did not know. Every leader is from a different background with different challenges. There's always a way to overcome a challenge. If you help enough other people overcome challenges and get what they want then you can have whatever you want."

Mitch and Deidre are living proof that you can learn the business and that success is 100% predictable if you get good at the fundamentals and stay focused on your dreams.

"If you work and stay focused on your dream, your success is 100% predictable."

- Mitch & Deidre Sala

David & Jules Dornan

Founders Diamonds from USA

David and Jules, both had careers before they decided they wanted something more than what traditional jobs could offer. David, the son of Network 21 founders, Jim & Nancy Dornan, met Jules while at a Network 21 event and they haven't looked back ever since.

David is originally from Orange County, California. He graduated with honors from Liberty University with a degree in Business Finance and Biblical studies. After graduation he began a successful career in commercial real estate development in Atlanta, Georgia, where he now resides with his family.

Jules is originally from Chico, California. She discovered the business opportunity and eventually met David while she was attending college in southern California. She soon moved to Atlanta and worked for a few years as software trainer for a medical office technology company.

As a young couple, they enjoy being able to spend their time building something of their own together, rather than spending their days apart. They love being full-time parents to their two daughters Faith and Ella. They see this as just the beginning and look forward to the exciting adventures life in this business will bring.

David is a very dynamic speaker. He has the charisma of presenting and sharing his knowledge very effectively. The way he addresses practical questions and dilemmas to the audience is unique and the guidance he is giving is very easy from everyone to understand and apply.

David and Jules bring a fresh & exciting perspective to your business and serve an instrumental role as a part of Network TwentyOne's "next generation" strategy as they continue to build both their North American and global business.
